# Part A: Pupil premium strategy plan

## Statement of intent

At the heart of our approach is raising attendance and high-quality teaching focussed on areas where disadvantaged pupils require it most, targeted support based on robust diagnostic assessment of need, and helping students to engage and access their curriculum.

Although our strategy is focused on the needs of disadvantaged pupils, it will benefit all pupils in our school where funding is spent on whole-school approaches, such as high-quality teaching. Implicit in the intended outcomes detailed below, is the intention that outcomes for non-disadvantaged pupils will be improved alongside progress for their disadvantaged peers through I do we do you do approaches, explicit instruction and vocabulary teaching and retrieval practice.

We will also provide students with support to develop appropriate learning behaviours, SEMH support and effective careers information advice and guidance so they can successfully transition to onward destinations.

Our strategy is driven by the needs and strengths of each young person, based on formal and informal observations and assessments. This will help us to ensure that we offer them the relevant skills and experience they require to be prepared for their next steps.

## Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

Challenge number	Detail of challenge
1	<i>Covid impact, anxiety and increased disengagement from education</i>
2	Attitudes towards reading from adults, staff and students
3	Range of complex needs and lack of effective multi-agency support

## Intended outcomes

This explains the outcomes we are aiming for **by the end of our current strategy plan**, and how we will measure whether they have been achieved.

Intended outcome	Success criteria
Improve attendance	Targeted cohorts of young people demonstrate an improved attendance in comparison to their previous mainstream attendance or recent attendance pattern
Improve reading progress	Young people make progress in reading and narrow gap with chronological age

Ensure progress in SEMH aspects	Young people who receive waves of intervention for SEMH needs make progress
